## Doctors Know Why Pabst is the Best

Beer That is Always Clean and Pure Most Refreshing, Most Nourishing.

Pabst Blue Ribbon Beer is always clean and pure and nutritious. This is the reason doctors say that Pabst Blue Ribbon is really to be preferred above any other beer brewed. There is never any doubt as to its cleanliness and the purity of its ingredients, and it is the most strengthening and refreshing beer because so rich in the food elements of barley malt and the tonic properties of hops.

It is truly said that Pabst has spent millions of dollars just to insure the absolute cleanliness and purity of his product. The immense Pabst Brewery in Milwaukee, built on high land in the residence section of the city—far away from the dirt and dust of the factory and shipping district, is a model of cleanliness and the whole Pabst process is a positive guarantee of an absolutely clean beer. From the time the malt is mashed, all through the long process of brewing, until you pour it into your glass, Pabst Blue Ribbon Beer never comes in contact with anything but pure filtered air and thoroughly sterilized brew kettles, pipes, tubes and storage tanks. It is pasteurized after bottling as a final safeguard against any possibility of contamination.

Pabst Blue Ribbon Beer is the choicest of all bottled beers, the most refreshing and healthful beverage, and should be in your home.
